

# **191** SP E P

Countertop Pump-Fed Soft Serve Model with Heat Treatment for maximum overrun control, hygiene & ease of use

Л

Performance and Quality The Carpigiani reputation for the smooth est, creamiest soft serve in the market is proven with this powerful, customizable model. Spigot flow allows for adjustable product flow. Product is fed from rear of cylinder eliminating need to prime and al lowing more controllable overrun.

**Convenience** Hopper prevents mixture separation and maintains consistent refrigerated temperature. Audible Signal alerts when refill is needed. Least number of components to clean in the industry.

Savings Unique cylinder construction delivers better results using less electricity. No cleaning is required for up to 14 days with heat treatment function. Available only in Air-cooled version.

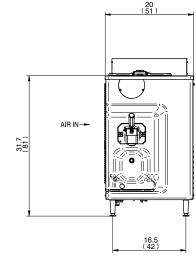

Safety TEOREMA guarantees facilitated assistance by providing on line monitoring and diagnosis on a tablet, phone or PC wherever you are.

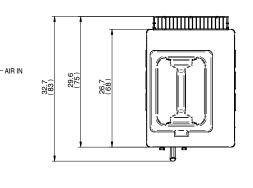

Hygiene Standby mode maintains safe product temperatures in the freezing cylinder and mix hopper utilizing minimal energy during idle periods.
